

## HAMMERHEAD SCREWS TYPE 28/15

DATASHEET  
WS 9415

# WS 9415

## TECHNICAL SPECIFICATIONS

Hammerhead screws for fast work during assembly in wood construction and drywall profiles. Hammerhead

screws are particularly quick and easy to use and can thus save time and costs during assembly.

|                          |                                            |
|--------------------------|--------------------------------------------|
| <b>Material</b>          | Stainless steel                            |
| <b>Quality</b>           | A2/A4                                      |
| <b>Surface</b>           | Blank                                      |
| <b>typ</b>               | 28/15                                      |
